

Blending Eastern and Western Knowledge we connect a broad spectrum of illnesses to a simple solution. Tong Ren Practitioners continue to realize success in healing the most difficult conditions such as leukemia, Parkinson's, Alzheimer's, migraines, arthritis, fibromyalgia, sciatica, Lou Gehrig's disease, pancreatic and many other forms of cancer

## Beyond Acupuncture Simple, Easy & Effective

TONG REN  
HEALING

**Tong Ren Therapy** is a form of energy therapy for restoring health and vitality.

Tong Ren is based on a belief that disease is related to interruptions, or blockages, in the body's natural flow of chi, neural bioelectricity, blood, or hormones. Tong Ren seeks to remove these blockages, restoring the body's natural ability to heal itself, even when illnesses are chronic, debilitating, or otherwise untreatable.

Tong Ren combines western knowledge of anatomy and physiology with the ancient principle of "chi," or life force energy, to create what many consider to be a powerful new healing modality. Drawing on the Jungian theory of the "collective unconscious," Tong Ren is believed to access energy from this universal source and direct it to the patient.

In a typical therapy session, the Tong Ren practitioner uses a small human anatomical model as an energetic representation of the patient, tapping on targeted points on the model with a lightweight magnetic hammer. The practitioner directs chi to blockage points corresponding to the patient's condition, breaking down resistance at these points. As blood flow, neural transmission, and hormone reception are restored, the body is then able to heal.
